CENTURY STORAGE SYSTEM: Fitting template 1

Use this template to check that your frame has enough clearance

- 1: Print to scale
- 2: Check the cage length {235.5mm} to make sure the printing is to scale
- 3: The solid black rectangles indicate the mounting holes. Align the mounting holes to your frame bosses.

CENTURY STORAGE SYSTEM: Fitting template 2

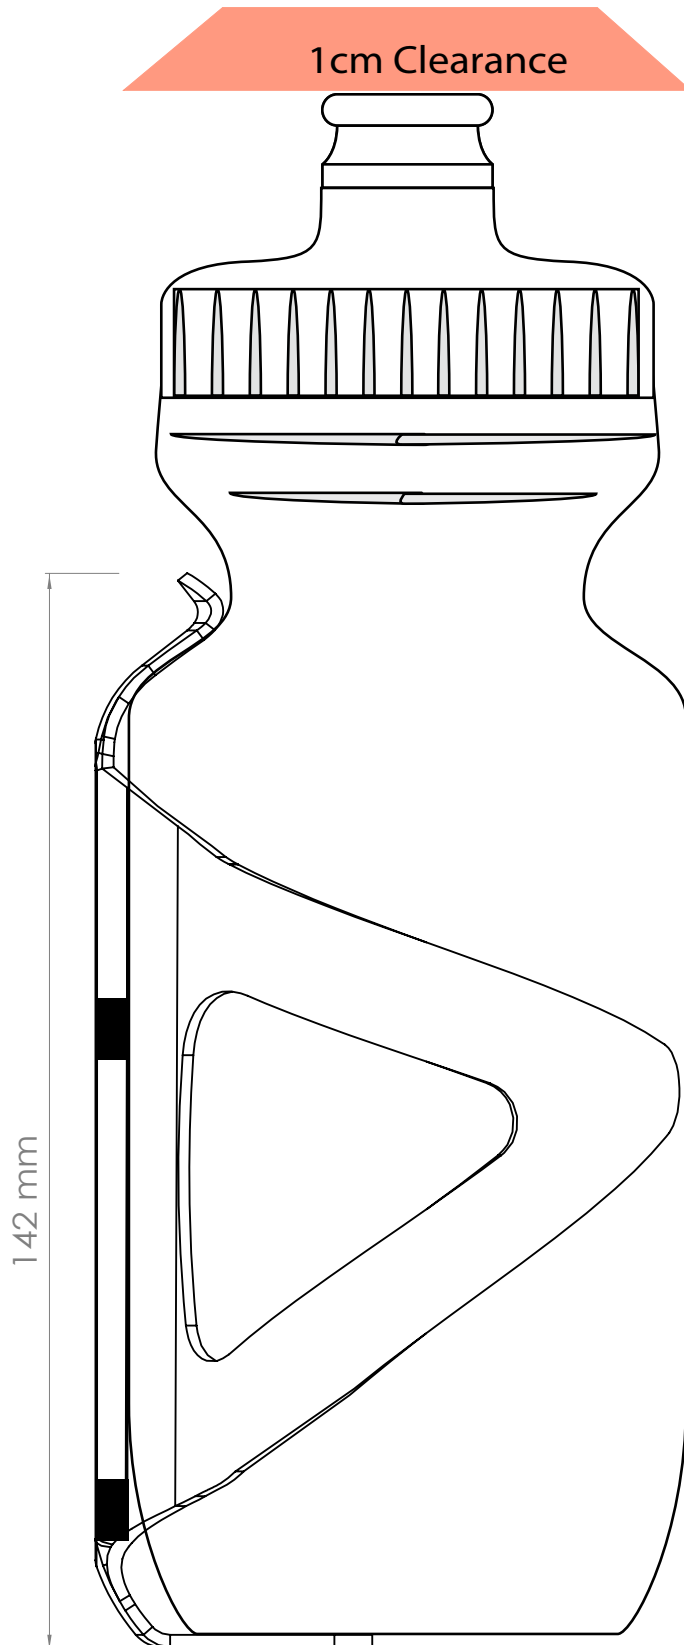

Use this template to check that your frame has enough clearance

- 1: Print to scale
- 2: Cut where indicated
- 3: Joining the bidon and storage container at the dotted cut line
- 4: Check the cage length (235.5mm) to make sure the printing is to scale
- 5: The solid black rectangles indicate the mounting holes. Align the mounting holes to your frame bosses.
- 6: Make sure there is at least 1cm clearance between the top of the bidon and you frame (top tube)
